Educational background

B.Sc (2009-2013), (Animal) Biology, Department of Biology, Faculty of Basic Sciences, Razi University, Kermanshah, Iran

M.Sc (2013-2016), Anatomical Sciences, Department of Anatomy and Cell Biology, Faculty of Medicine, Kermanshah University of Medical Sciences, Kermanshah, Iran

Ph.D. (2016-2021), Tissue Engineering, Department of Tissue Engineering and Regenerative Medicine, Faculty of Advanced Technologies in Medicine, Iran University of Medical Sciences, Tehran, Iran

Fields of Teaching Expertise	Fields of Research Expertise
Basic and Advanced Histology	2D and 3D cell culture
Principles of Tissue Engineering	Isolation of Mesenchymal Stem Cells
Principles of Stem Cell Biology	Stem Cell Differentiation
Principles of Tissue/Organ regeneration	Designing Nanoparticulate Delivery Systems
	Fabricating Tissue Engineering Scaffolds

Fields of Research Interests

Drug Delivery Systems For Cancer Therapy

Fabrication Of Multifunctional Tissue Engineering Scaffolds

Decellularized tissues/organs For Biomedical Applications
